IMPACT HTA Final Workshop

Improved methods and actionable tools for enhancing HTA

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 779312.

IMPACT HTA - Improved methods and actionable tools for enhancing HTA

IMPACT HTA is a research project looking at new and improved **methods, tools and guidance** for decision-makers aiming at:

- **understanding variations** in costs and health outcomes **within and across countries**, and
- **integrating clinical and economic data** from different sources to **improve methods** in economic evaluation in the context of HTA and health system performance measurement
- developing and disseminating a number of **innovative methodologies, toolkits and processes** aiming to **aid decision-making and improve efficiency** in resource allocation
- developing and disseminating tools **facilitating EU-wide cross-country collaboration** across Member State governments, HTA agencies, professionals and the broader stakeholder community.

IMPACT HTA - Work Packages

IMPACT HTA proposes new and improved **methods, tools and guidance** for decision-makers across ten research areas in the context of HTA and health system performance measurement.

The Research Areas	
✓ Combining RCTs and Real Word Evidence (RWE)	✓ Multi-criteria value methods (MCDA)
✓ Health care costs	✓ Hospital-based assessments
✓ Social costs	✓ Measuring fiscal impact
✓ Preference-based HRQoL	✓ Appraisal of orphan medicinal products
✓ Methods to deal with non-randomised data	✓ HTA implementation
